

2020 SOAR Mentor

Brendan Lucey, MD, MSCI

Assistant Professor of Neurology, Washington University

Board Certification/Specialty: Neurology, Clinical Neurophysiology, Sleep Medicine

About Me: My research program focuses on sleep, aging, and Alzheimer's disease. I am actively investigating longitudinal sleep changes as a biomarker for Alzheimer's disease risk and sleep manipulation as a treatment to prevent/delay Alzheimer's disease. I am actively funded by a K76 Beeson career development award, NIA, and a large foundation grant.

Past Mentees: Eric Landsness, MD, PhD; Mian Iftikhar, MD; Margaret Blattner, MD; Chris Chou, MD
