@DrHeinZzzinger

Dr. Katie Heinzinger is a Clinical Research Fellow at the Cleveland Clinic Neurological Institute Sleep Disorders Center, funded by the T32 grant, Supporting Multidisciplinary Achievement in Respiratory Research Training (SMARRT; T32HL155005; PI: Raed Dweik). She is a physician, board-certified in Family Medicine and Sleep Medicine. She completed her Family Medicine residency at Stamford Hospital/Columbia University in Stamford, CT and her Sleep Medicine fellowship at the Cleveland Clinic in Cleveland, OH, where she now sees patients and interpret sleep studies independently. In parallel with her research, she is a graduate student the Clinical Research Scholars Program at Case Western Reserve University, taking epidemiological and biostatistical coursework

toward her master's degree. Under the tutelage of her mentor, Dr. Reena Mehra, Dr. Heinzinger is investigating sleep physiologic signatures in a large-scale clinical cohort to examine the relationship between sleep and atrial fibrillation.
